Interim Measures Workplan Implementation

Dear Mr. Spratlin:

Armco Inc. is providing notification of planned field activities for the implementation of the Revised Interim Measures Workplan dated February 1996. Field activities are projected according to the following schedule:

<u>Date</u>	<u>Projected Activity</u>
10/25/96	- Mobilization to Site, Site walk-through and identification of sampling locations
10/28/96	- Utility clearance
10/29/96-10/30/96	- SWMU 10 surface soil sample collection - SWMU 24 surface soil sample collection
11/1/96	- SWMU 25 geoprobe soil boring installation and sample collection - SWMU 26 geoprobe soil boring installation and sample collection
11/4/96 - 11/6/96	- SWMU 24 trenching activities and sample collection
To be determined	- SWMU 12 monitoring well installation and development
To be determined	- SWMU 12 groundwater sampling activities

At this time, field conditions do not permit the installation of SWMU 12 monitoring wells. Actual dates for SWMU 12 activities will be determined at a later time and EPA will be notified in advance. Please note that these dates could vary slightly based on field conditions.

If you wish to visit the site during field activities, it would be best to contact me prior to visiting to confirm the current schedule and allow Armco to provide the appropriate personnel on-site to guide you during the field
